[] In essence, the IPC exists to determine these requirements necessitating clandestine collection and to furnish the Clandestine Services with statements (IPC Lists) of these consistent with the PNIO.

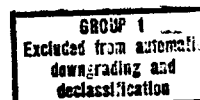

3. Since modifications to this paper are now beyond the cognizance of the Coordination Staff, it is suggested that we present a statement along the following lines to the Chairman, USIB, at the briefing session preceding the 27 June meeting:

References to the IPC should use the title published in DCID 5/5, i. e., "Interagency Clandestine Collection Priorities Committee." References to the IPC []

[] should be added as follows:

Interagency Clandestine Collection Priorities Committee (IPC). By the provisions of DCID 5/5, the IPC serves as the community element to formulate
